PROFESSIONAL EXPERIENCE

Banking Software Implementation Specialist Intern at *Y-Solutions*

Moscow, Russia | November 2019 - October 2021 | Part-time

- Validated and debugged **200+ SQL-based regulatory reports** within a core banking system, ensuring data accuracy and compliance with financial regulations.
- Engineered and optimized **400+ complex SQL queries**, improving system throughput and ensuring **100% compliance** with changing regulatory standards.
- Supported implementation of the **Diasoft core banking platform for 2 banks**, assisting in system configuration, testing, and production deployment.

Systems Integration Technician at *PRO-Computer*

Moscow, Russia | September 2020 – May 2022 | Part-time

- Assembled and optimized 20+ custom high-performance systems**, managing component compatibility, thermal dynamics, and hardware configuration to ensure peak operational efficiency.
- Provisioned and hardened Windows OS environments**, implementing initial security baselines, user access controls, and system updates to deliver secure, deployment-ready workstations.
- Conducted rigorous hardware diagnostics and stress-testing** to troubleshoot component conflicts, isolate faults, and guarantee 100% system stability before client delivery.

EDUCATION

Griffith College Dublin

BSc (Hons) in Computing Science | Dublin, Ireland | September 2023 – June 2027
